Hey Bryan,

5 years ago yesterday I walked in your office for my first session- I walked out of your office that day a non-smoker!!! I completed the next 2 sessions and listened to the cd for 21 days. The process couldn't be easier. My wife quit the same night I did and it was way harder for her. Thanks to you our son will never remember me smoking! Your service saved me soooo much money the last 5 years! Not to mention the health benefits! Funny story about that night- when I left your office-the song playing was Steve Millers Joker- which has the verse "Im a joker, Im a smoker"- and thought to myself "Now cut that out God"

Thank You,
Drew Ritchie
